	DAY 1 Tuesday November 10th	DAY 2 Wednesday November 11th	DAY 3 Thursday November 12th	DAY 4 Friday November 13th
9:00 AM	edge lab LIVE @ electronica = Hardware Giveaway = Hands-On Workshop			Welcome note Edge lab Live Team
9:15 AM				Getting OTA Working on Zephyr
9:30 AM	**edge lab LIVE! Keynote** From Makers to Millions: Scaling Innovation for the AI Era ARDUINO congatec SECO	**Edge AI Day Keynote** MICROCHIP HAILO	**CRA Day Keynote** State of the CRA for Embedded-Powered Products	Zephyr Snow Predictor
10:00 AM		Bringing Amazon Sidewalk to Life AVNET amazon sidewalk	Cyber Resilience Act: From Compliance to Competitive Advantage NXP	Konfig & Devicetree
10:30 AM	Voice to Action: Building Portable Edge AI Applications with Linux and Containers with Raul Muñoz Qualcomm			Bringing Robust OTA Updates to Zephyr
11:00 AM				CRA-Ready by Design
11:30 AM	What If Edge Servers Were Composable? CXL, COM-HPC and CAPE	Build, Sense, and Visualize featuring the Infineon PSOC™ Edge AVNET Infineon	Locking down the Edge: NVIDIA, PM 2.0 and Physical AI	Root of Trust to Release Thank you note & Networking
12:00 PM	Accelerate Embedded Development with the FRDM Automotive Platform NXP		From Unauthenticated Netboot to CRA-Ready Industrial Gateways: Measured Boot and Remote Attestation on Baremetal RISC-V	yocto PROJECT Meetup PROGRAM TBA
12:30 PM		Accelerate your Design Journey with the Developer Hub Integrated with Renesas 365 RENESAS hubble NETWORK	From Firmware Build to CRA Evidence: A Reproducible SBOM and Vulnerability Workflow	
1:00 PM			CRA Conformance and Raspberry Pi: A Collaborative Analysis of Compliance Dos and Don'ts with Marta Rybczyńska	
1:30 PM	Build Professional UIs with LVGL on STM32U5 Board with Gábor Kiss-Vámosi LVGL			
2:00 PM		AI at the Edge with i.MX Applications Processors NXP	How to Be a Secure Component in the Embedded Product Supply Chain embeddedTS YGREKY	
2:30 PM				
3:00 PM	Stop Hacking Hardware Test Scripts—Hack on Hardware with Friends			
3:30 PM	One Project, Many Boards: Building a Maintainable Yocto Platform Across Different Hardware	Reinforcement Learning for Robotics with Shawn Hymel DigiKey	Patch at Scale: What CRA-Ready Software Updates Look Like in the Real World	
4:00 PM	Yocto, Containers and Edge AI: Making All the Pieces Work Together		From Visual Workflow to CRA-Ready Edge Deployment	
4:30 PM	SMARC Carrier Board Design: What Really Matters with Martin Unverdorben SGET STANDARDIZATION GROUP FOR EMBEDDED TECHNOLOGIES TRIA AN AVNET COMPANY		Edge Security for Cellular IoT Devices: How to Ensure Edge Security and CRA for Cellular IoT Devices with Exein and Deutsche Telekom with Thomas Roos exein T	edge lab – LIVE – electronica INFO@EDGELABLIVE.COM
5:00 PM		Scaling Physical AI Value from Smart Sensors to Industrial Intelligence		
5:30 PM		Where Should the AI Run? Making the MCU, NPU, or Cloud Decision		
6:00 PM	I·o·T—S—T·A·R·S	An Evening of Edge AI with Shawn Hymel	CRA Industry Nightcap & Expert Panel: From Requirements to Evidence Across the Embedded Supply Chain IOT ANALYTICS

electronica

NOVEMBER 10-13, 2026
MUNICH, GERMANY

Booth PACKAGES

edge lab LIVE! offers booth packages that combine stand space with far-reaching awareness.

PACKAGE SIZE	PRICE*	KEY INCLUSIONS**
3 m² STAND	6,490 €	• Connected Scavenger Hunt Participation • Press Release (~500 words, 2 revisions) written & distributed to ~1,000 industry editors in North America & EMEA
9 m² STAND	8,900 €	All 3 m² inclusions plus a larger footprint
12 m² STAND	12,900 €	All 3 m² inclusions plus a larger footprint
18 m² STAND		Contact for more information

DETAILS ON edgelablive.com

*Prices exclude VAT.

**All packages include RFID/QR-code badge scans to tally leads.
